Development Services**

## C C++ TRAINING OVERVIEW

HB Services provides excellent training for C and C++ Training in Chennai with placements. Our C C++ trainers are well trained and help you with learning C C++ program in short period of time. C,C++ are the most essential knowledge to be known to each and every participant who want a enhance their programming skills.

C C++ course in HB Services fully covers the basics programming in the “C” programming language and demonstrates fundamental programming techniques, custom and vocabulary including the most common library functions and the usage of the processors.

We help you familiarize with the basic concept of computer programming and developer tools. We guide you to present the syntax and semantics of the “C” language as well as data types offered by the language. We allow you to write your own programs using standard language infrastructure regardless of the hardware or software platform.

## WHAT IS C PROGRAMMING?

The C programming language is one of the most stable and popular programming language in the world. It helps to power your smart phone, your car’s navigation system, robots, trains, and almost all electronic devices

## HISTORY OF C LANGUAGE

C programming language was developed in 1972 by Dennis Ritchie at bell laboratories of AT&T (American Telephone & Telegraph) located in the USA.

Dennis Ritchie is known as the founder of the C language.

## WHAT IS C++ PROGRAMMING?

C++ is an object-oriented programming language. It is an extension to C programming. C++ is a general purpose, case-sensitive, free-form programming language that supports object-oriented, procedural and generic programming.

## WHAT IS THE DIFFERENCE BETWEEN C AND C++?

The major difference between C and C++ is that C is a procedural programming language and does not support classes and objects, while C++ is a combination of both procedural and object oriented programming language; therefore C++ can be called a hybrid language.

## WHO CAN LEARN C C++ ?

Any Students, Working Professionals and anyone who has basic Computer Knowledge and wants to enter in IT Industry can learn C C++ course.

## BENEFITS OF LEARNING C/C++ PROGRAMMING?

If the person had learned driving on a manual car, he could have easily driven the automatic car as well. Similarly, if a person learns C/C++ programming first, it will help him to learn any modern programming language as well. As learning C help to understand a lot of underlying architecture of operating system. Like, pointers, working with memory locations etc.
