WHAT IS CISA?

CISA (Certified Information Systems Auditor), an ISACA sponsored certification is world renowned as the standard of achievement for those who audit, control, monitor and assess information technology and business systems.

The CISA designation is a globally recognized certification for IS audit control, assurance and security professionals. Being CISA-certified showcases your audit experience, skills and knowledge, and demonstrates you are capable to assess vulnerabilities, report on compliance and institute controls within the enterprise.

Many Enterprises demand IS audit professionals that possess the knowledge and expertise to help them identify critical issues and customize practices to support trust in and value from information systems. The skills and practices that CISA promotes and evaluates are the building blocks of success in the field. Possessing the CISA demonstrates proficiency and is the basis for measurement in the profession.

WHY CISA?

- ✓ CISA Professionals are highly qualified and experienced
- ✓ Provide the enterprise with a certification for IT assurance that is recognized by multinational clients, lending credibility to the enterprise
- ✓ Are excellent indicators of proficiency in technology controls
- ✓ Demonstrate competence in five domains, including standards and practices; organization and management; processes; integrity, confidentiality and availability; and software development, acquisition and maintenance
- ✓ Demonstrate a commitment to providing the enterprise with trust in and value from your information systems
- ✓ Maintain ongoing professional development for successful on-the-job performance

COURSE OBJECTIVES

- › The Process of Auditing Information Systems
- › Governance and Management of IT
- › Information Systems Acquisition, Development and Implementation
- › Information Systems Operations, Maintenance and Service Management
- › Protection of Information Assets
