CISM CERTIFICATION
TRAINING COURSE

CISM TRAINING OVERVIEW

HB Services provide the best CISM (Certified Information Security Manager) Training in Chennai. We provide classroom and online training for CISM. Training for CISM will be handled by experienced CISM Professionals who are in the field for more number of years. HB Education has trained and certified more than 500+ CISM Professionals in the last 11 .years.

CISM Training from HB Services helps in establishing and maintaining a framework to provide assurance that information security strategies are aligned with business objectives and consistent with applicable laws and regulations. CISM identifies and manage information security risks to achieve business objectives. CISM helps in creating a program to implement the information security strategy. CISM implements an information security program, oversee and direct information security activities to execute the information security program. It also guides in planning, developing, and manage capabilities to detect, respond to, and recover from information security incidents.

WHAT IS CISM?

The CISM certification from ISACA is a program developed for information security managers, information security professionals and individual who are planning to move to information security management. CISM program will combine the achievement of passing a comprehensive exam with recognition of work with the skills needed to work as Information Security managers and will allow you to clear the CISM exam from the first attempt and get certified with globally recognized certificate. There are more than 32000 CISM Professionals throughout the world.

WHO CAN LEARN CISM?

The intended audience for this course is information security and IT professionals, such as network administrators and engineers, IT managers, and IT auditors, and other individuals who want to learn more about information security, who are interested in learning in-depth information about information security management, who are looking for career advancement in IT security, or who are interested in earning the CISM certification.
