# ABOUT MICROSOFT CERTIFICATIONS

Choosing The Right Certification for your Career is always important. Microsoft certification is the top effective way to achieve goals in long-term IT careers, being at the same time a useful tool for companies to develop and retain valuable IT professionals.

In the current job market, Microsoft certifications represent one of the richest and varied spectrums of job roles and responsibilities, which are embraced by industry professionals worldwide, that earning a specific credential provides an objective validation of their ability to successfully perform critical IT functions in a wide range of companies and industries. Microsoft Certifications will help you tremendously in building your IT career.

## WHAT IS WINDOWS SERVER ADMINISTRATION COURSE?

A Windows Server Administrator Course qualifies you for Microsoft Certified Solutions Associate (MCSA). This will help an IT professional to effectively plan, maintain, implement, and support information systems in diverse computing environments using both the Microsoft Windows 2012 & 2016 Server and the Microsoft .NET integrated family of server products. In short, the Microsoft Certified Systems Administrator (MCSA) Course will provide you with skills to successfully manage, implement, and troubleshoot the needs of Microsoft Windows 2012 & Windows Server 2016 based operating environments.

## WINDOWS SERVER ADMINISTRATOR CERTIFICATION

Windows Server 2012 and Windows 2016 certification will qualify you for a position as a network or computer systems administrator or a computer network specialist. It provides the skills and knowledge necessary to implement a core Windows Server 2012 infrastructure in an existing enterprise environment and covers implementing, managing, maintaining, and provisioning services and infrastructure in a Windows Server 2012 or 2016 environment. Windows Server redefines the category, delivering hundreds of new features and enhancements spanning virtualization, networking, storage, user experience, cloud computing, automation, and more. Microsoft Certified Solutions Associate (MCSA) is an entry level IT certification for IT professionals who are interested in a career System Administration in Windows Server 2012 and Windows Server 2016 products.

This Certification is aimed for network administrators, network engineers, systems administrators, IT engineers, information systems administrators, network technicians, technical support specialists and other IT professionals currently working in complex computing environment of medium-to-large organizations. Currently MCSA Certification Papers retired. Still you can learn MCSA course for knowledge purpose. For those holding MCSA or MCSE, your current certification will remain valid and you'll have a chance to upgrade to the Azure certification. Change is inevitable in IT and the IT certification world and you must be aware of these changes.
